

The chart below is designed to help you know which vaccine to enter into VacTrAK. Make sure the vaccines you enter into VacTrAK directly or into your personal settings match what is in your inventory from the Vaccine Depot. For example, if you have Preservative Free H1N1 vaccine from Novartis, your inventory should be entered in VacTrAK as **Novel H1N1, Presv free, 48+ Mos**, as Novartis is only licensed for 48+ Mos.

Vaccine	VacTrAK Vaccine Name	Manufacturer	Product Description
H1N1, Nasal spray	Novel H1N1 Nasal	MedImmune	0.2mL intranasal sprayer
H1N1, Preservative free injectable	Novel H1N1, Presv free, 6-35 Mos	Sanofi Pasteur	Pre-filled 0.25mL syringe
